

Amendments to the Claims:

A listing of the entire set of pending claims (including amendments to the claims, if any) is submitted herewith per 37 CFR 1.121. This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently amended) A display device comprising:
 - a first light guide,
 - a second light guide,
 - a movable element that is arranged between the light guides, and ~~selection means for locally bringing the movable element into contact with said light guide,~~
 - ~~characterized in that the display device comprises a second light guide, wherein said movable element is arranged in between said light guides, and wherein said selection means are arranged~~
 - a selector that is configured to locally selectively bring the movable element into contact with a selected one of said the first and second light guides.
2. (Currently amended) ~~A~~ The display device ~~as claimed in of~~ claim 1, wherein said the movable element is reflective.
3. (Currently amended) ~~A~~ The display device ~~as claimed in of~~ claim 1, wherein said the movable element is transparent.
4. (Currently amended) ~~A~~ The display device ~~as claimed in of~~ claim 1, wherein: said selection means comprise
 - the selector includes row and column electrodes, and ~~means for applying~~
 - the display device includes one or more drivers that are configured to provide voltages to the row and column electrodes.

5. (Currently amended) A ~~The~~ display device ~~as claimed in of~~ claim 1, further ~~comprising including~~ light-emitting means ~~devices~~ for introducing light into ~~said the~~ light guides.

6. (Currently amended) A ~~The~~ display device ~~as claimed in of~~ claim 5, wherein: ~~said~~ the light-emitting means ~~devices~~ are arranged configured to emit UV light into the light guides, and ~~wherein~~ the display device comprises includes elements for emitting visible light when excited by UV radiation.

7. (Currently amended) A ~~The~~ display device ~~as claimed in of~~ claim 5, wherein ~~said~~ the light-emitting means ~~devices~~ are arranged configured to alternately introduce light into ~~said the~~ first and second light guides.

8. (Currently amended) A ~~The~~ display device ~~as claimed in of~~ claim 1, wherein ~~said~~ the light guides are formed by plates of a transparent material, sandwiching the movable element between them.

9. (New) The display device of claim 6, wherein the light-emitting devices are configured to alternately introduce light into the first and second light guides.
